

HAYES MUSIC

Brass & Woodwind Instrument Sales and Repairs

BRASS SERVICING & REPAIRS

The HAYES MUSIC brass repair workshop is on-site at the shop premises. We can offer a wide range of services from a simple replacement waterkey cork to a complete re-lacquer or silver plating.

Most repair and servicing work will require the instrument to be left with us for a couple of days, but certain small jobs may be done while you wait, eliminating the need for a return journey.

A full service would involve :-

- Complete strip down of instrument, valves and tuning slides
- Valves, valve casing and tuning slides checked & repaired
- Instrument cleaned – inside & out
- Reassembled – valve felts, springs and waterkey corks changed as required
- Instrument checked and played
